

Product Update: New three-phase EV gun cable supplier

Wallbox manufactures chargers for Europe and overseas in our factories in Barcelona, meeting the European IEC standards and the UL for the USA. Due to the exponential growth of our sales, we are partnering with suppliers of trust in order to ensure current and future demand is met.

The EV gun cables are an important part of our product and quality is a priority for us. We are now working with two German suppliers, Phoenix Contact and Harting Technology Group:

- Harting will supply 3ph cable guns in the EU and 1ph cable guns in the US.
- Phoenix remains the supplier for 1ph cable guns in the EU.

Below you can see the difference between Phoenix and Harting cable guns:

Phoenix Contact

Harting Tech Group

The following chargers will now be supplied with the new 3ph Harting gun. There are no changes to the cables specifications.

Model	Code	Description
Pulsar	WBPL-X-2-3-X-00X WBPL-X-2-4-X-00X	Wallbox Pulsar 11/22kW (All versions)
